

Our Outstanding Business Partner for October is Steiner Lumber.

Chris Steiner- Owner

Steiner Lumber began in Shreve in 1997 and acquired their Smithville location in 2009. They provide a full range of wood and other building materials including planks, wooden beams, tools, measuring equipment, delivery and much more. Owner Chris Steiner is an Alumni of the Carpentry program. He opens his lumber yard to us to add educational experiences for our students.

Besides making significant donations to our school, Chris and his team have been a huge supporter of the Career Center's Construction Technologies program providing speakers, job placement opportunities, and field trip sites for our students. Their proximity to the Career Center makes them a perfect location for hands-on learning.

Construction Technologies Instructor Rod Martell said, "Chris is a perfect example of a productive member of society. He gives time and valuable donations to WCSCC without ever asking for anything in return. He is an active member of my Advisory Committee and attends the Partnering for Success Luncheon in the Spring."

Our relationship with businesses is instrumental to our success and we are honored to have Steiner Lumber as one of our Outstanding Business Partners.
